

## Food Safety Policy

**TALOS ATTIKIS LTD** is specialized in warehousing and transport services on behalf of its clients.

The competitive advantage of the company is, not only the implementation of hygiene rules to all the stages of transport and warehousing, but also the devotion in:

- Satisfaction of clients requirements
- Participation of Management Direction to all the company's processes in every day basis
- Maintenance and Continuous Improvement of its presence in the market
- Implementation of rules and legislation for its correct function
- Continuous training of the staff
- Continuous development in hygiene, safety and transport issues
- Permanent communication with all the suppliers and clients in order to provide adequate information to Food Safety issues
- Commitment of the Management Direction to continuous improvement of the providing services

Everyday goal of the company is the effective implementation of the ISO 22000 standard for the Food Safety Management.

The Management Direction is responsible for the supervision of the implementation of the hygiene rules in the company. It is also its jurisdiction to review the Food Safety Policy in regular time periods in order to confirm its effectiveness and relevance to the subject.
